

# THE DEWAR

AS BROUGHT TO LIFE BY OUR CUSTOMERS

# DISCOVER THE HEIGHT OF ASPIRATIONAL FAMILY LIVING

Our passion for designing and building aspirational places to live is very much evident in The Dewar. This impressive family home offers all the space, scope and comfort you need. From the large open plan kitchen and family/dining area to the equally generous lounge and five well-proportioned bedrooms, one of which also makes a convenient study, it's what every growing family looks for.

See for yourself how it inspired one of our happy homeowners.

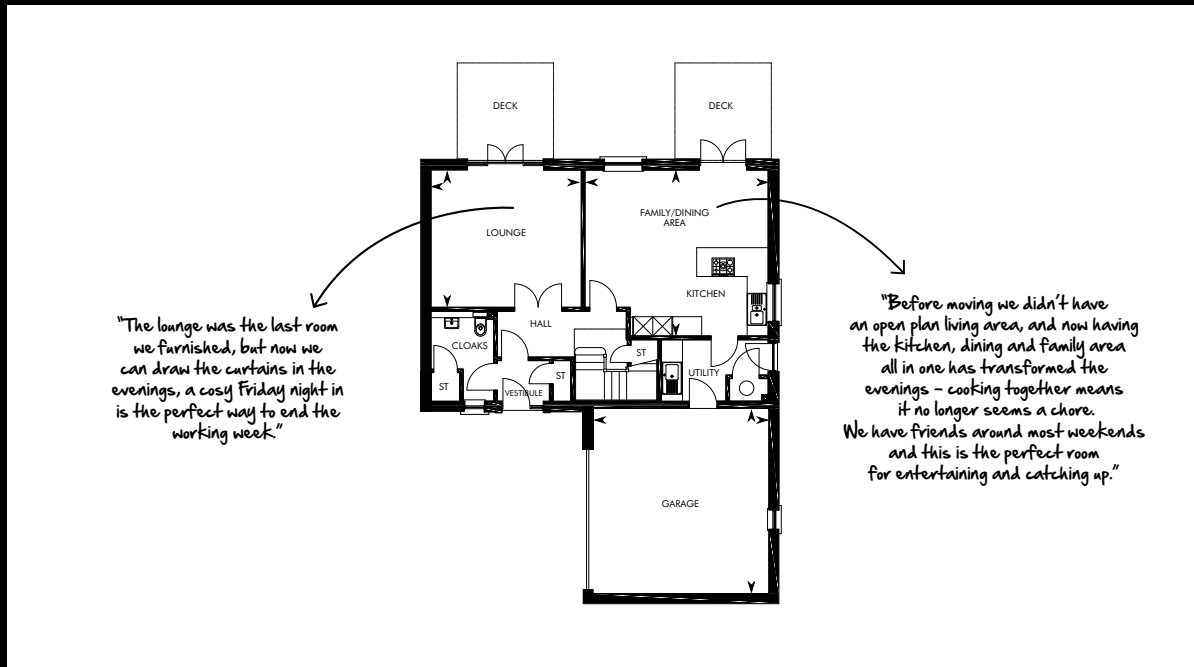

The Dewar showhome at Kinnaird Oaks

*“ We chose the Dewar house style and love it! The fact both main living areas downstairs look onto the garden was a huge benefit, affording an extra level of privacy and connection to the outdoors, perfect for the puppy we will soon have playing out there ”*

# THIS IS FLEXIBLE FAMILY LIVING

Living spaces are light and informal, with ample room for everyone in a busy home to gather together and have fun, or simply spread out and relax in contemporary style.

"The lounge was the last room we furnished, but now we can draw the curtains in the evenings, a cosy Friday night in is the perfect way to end the working week."

"Before moving we didn't have an open plan living area, and now having the kitchen, dining and family area all in one has transformed the evenings - cooking together means it no longer seems a chore. We have friends around most weekends and this is the perfect room for entertaining and catching up."

“ Another main feature that attracted us to The Dewar was the double garage which offers so much additional space, not that you need it with plentiful storage spaces provided throughout ”

The images shown are taken from previous Dewar showhomes and feature fixtures, décor, flooring and soft furnishings which are not fitted as standard in a CALA home. These are used to suggest possible finishes you could adopt in your own home and would be an additional cost. Please ask a CALA representative for further details.
